Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

- Apply access modifiers
- Apply encapsulation principles to a class
- Create and manipulate Strings
- Declare, instantiate, initialize and use multi-dimensional arrays
- Define the structure of a Java class
- Differentiate among checked exceptions, unchecked exceptions, and Errors
- Know how to read or write to object fields
- Use abstract classes and interfaces
- Use super and this to access objects and constructors

If this is the final exam in your certification path, you are required to complete the following steps.

- Visit certification.oracle.com and select your certification path to ensure you are aware of all certification requirements.
 - Note that completion of the required training and approval of the course submission form are also required in paths that require training.
- Check certview.oracle.com to confirm that all completed components are in your profile.
 - If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
 - Contact www.pearsonvue.com/oracle/contact to merge your IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the 'surviving id').
